## The 24<sup>th</sup> International ACM Conference on 3D Web Technology

26-28 July 2019, Los Angeles, CA

### SPONSORSHIP PROSPECTUS

The 24<sup>th</sup> International ACM Conference on 3D Web Technology (Web3D 2019), organized in cooperation with the Web3D Consortium, will address an extensive range of research, development, and practice related to web-based interactive 3D applications. The goal of the conference is to share innovative and creative ideas that enable development of 3D applications for a wide range of 3D environments, including the web, mobile as well as virtual and augmented reality (VR & AR) setups. Works related to various application domains, including e-commerce, education, cultural heritage, entertainment and infotainment, social media, tourism, medicine, military, industry and construction (and many others) are welcome.

This year's theme "**3D for Everyone**" emphasizes the global scope and impact of current and future 3D technology. Web3D wants to foster and support the increasing development, use, and utility of 3D technologies for application developers, domain experts, as well as for end users. This includes the creation of interactive 3D content, robust and versatile 3D content representation and delivery standards, as well as presentation and interaction techniques enabling development of user-friendly 3D applications.
